The most elegant and modern sugarcane juice machine in the world!

The EasiDeMax S4 sugarcane juice machine is electrically powered and efficiently extracts sugarcane juice. It's the best sugarcane juice machine for juice shops and health enthusiasts. Whether you're serving customers or making juice at home, this juicer makes things easy and clean.

*Try out the EasiDeMax S4 for a taste of juicing's future!*

— Meet the Sugarcane Juice Machine EasiDeMax S4 —

EasiDeMax S4 is a table top sugarcane juice machine with the most modern, elegant, and compact design in the market, making it ideal for juice bars and other health-conscious commercial locations. This commercial sugarcane juice machine can perfectly showcase a fresh and healthy juice-making process through a transparent window, resulting in an attractive display right in front of customers, which can truly help enhance the ambiance of your juice business to earn huge profits soon by increasing customer desire to buy.

## — How Our EasiDeMax S4 Stands Out —

### *Elegant style, compact and visual juicing process*

---

EasiDeMax S4 is an electric sugarcane juicer machine, with a modern elegant style, its transparent window design allows users and consumers to easily see a real world of the juicing process inside. It can truly attract consumers' attention and showcase the real hygiene of the fresh juice being prepared, which really help enhance the ambiance of your juice business.

### *Cane juice is cleaner, clearer, and more hygienic*

---

Our hygienic sugarcane juice machine, EasiDeMax, keeps a clean and shiny stainless steel surface that is always on display right in front of customers. Not only all visible stainless steel surfaces are meticulously polished to prevent welding residues and dirt stains, ensuring the purity of sugarcane juice, but also come with a 0.150mm filter and a removable tray to ensure clearer cane juice.

### *Heavy-duty operation, high yield, high efficiency*

---

As a 4 roller sugarcane juice machine with the 0.5HP all-copper motor, EasiDeMax S4 offers over 75% juicing capability of single pass for peeled and unpeeled cane stalks 1-6cm in diameter, with over 1-liter output per minute. This helps you skyrocket the juice business efficiency and surely make confidence earn more based on consuming as little electricity as possible.

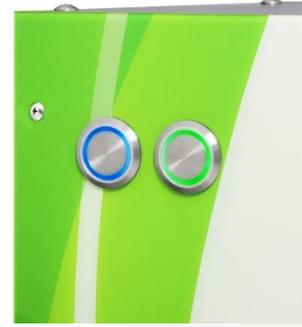

### *Durable and removable rollers offer easy cleaning*

---

EasiDeMax S4 hygienic sugarcane juice machine is designed with a sturdy housing made of 304 stainless steel, actually, the 4 rollers are made of food-grade 304, making them definitely more durable and rust-free. This not only ensures that the cane juice prepared is healthy and safe to drink, but also makes them easy to clean and maintain after crushing.

### *Simple panel and very easy to control*

This compact sugarcane juice machine is equipped with a high-quality motor and just two switches that control all functions perfectly. It's really user-friendly for the operator. Designed with ergonomic features, overload protection, and detachable rollers, EasiDeMax S4 offers a reliable experience and ensures long-term use.

### *Quiet operation for a friendly ambiance*

Our quiet sugarcane juice machine operates at a noise level of just 60-70 dB, ensuring a serene environment where users can enjoy juicing without disruption. This feature not only enhances customer satisfaction but also promotes a welcoming atmosphere, ideal for settings ranging from cafes to health bars.
