

TiniForce
Tabletop Sugar Cane Juicer

Household & Commercial Sugarcane Juice Machine

NEW GENERATION

Sugarcane Juice Machine TiniForce S3

Features:

- ☑ Compact design saves space with the smallest possible footprint.
- ☑ All touch surfaces are ultra clean without stains or welding spots.
- ☑ Cane juice crushed by this model is cleaner, clearer, and more hygienic.
- ☑ Built-in a full-new all-copper motor offers at least 1/2 HP capacity.
- ☑ It provides efficient juicing for both household & heavy-duty commercial use.
- ☑ 3 solid rollers made of food grade SS304 offer over 78% juicing yield.
- ☑ The entire machine is made from durable, food-grade SS304 stainless steel.
- ☑ Its body frame is made from sturdy aluminum alloy for greater durability.
- ☑ Adjustable roller gap allows effortless juicing of different types of sugarcane.
- ☑ The flip cover is removable for easy cleaning and maintenance.
- ☑ Three buttons: forward, reverse, and emergency stop (on/off).
- ☑ Designed with ergonomic features, and all-round safe protection.
- ☑ Super silent operation, possibly the world's quietest sugarcane juice machine.
- ☑ Equipped with handles on both sides for easy mobility.

The most high-end design mini sugarcane juice machine in the world!

We've designed TiniForce S3 with a fashion-forward and tiny body. Thanks to its super-compact and portable designs, you can easily move and set up it for home, kitchen, and commercial ambiance. Whether you're running a store, bar, restaurant, or street stand, or simply desiring fresh sugarcane juice at a party, this awesome helper won't let you down when it comes to efficiently crushing sugarcane.

Try out the TiniForce S3 for a taste of juicing's future!

Easimaker
to make it easier.

— *Meet the Sugarcane Juice Machine TiniForce S3* —

TiniForce S3 is a tabletop electric sugarcane juice machine featuring the most modern, high-end, and compact design on the market, making it ideal for both household and commercial use — worth having for the long term. It operates with ultra-low noise and may even be considered the world's quietest sugarcane juice machine.

All accessible surfaces of this model are ultra-clean, with no stains or welding marks, ensuring that the juice produced is cleaner, clearer, and more hygienic. TiniForce S3 enables fresh and healthy juice-making with an attractive display right in front of customers — truly enhancing the ambiance of your juice business and boosting customer desire to buy, helping you earn higher profits faster.

— *How Our TiniForce S3 Stands Out* —

Compact design, modern high-end style

TiniForce S3 is a semi-mini sugarcane juicer machine with a modern, high-end design. It not only saves space with the smallest possible footprint but also allows users and consumers to easily understand that the cane juice they drink is crushed through high-quality juicing processing. It can truly attract consumers' attention and showcase the high quality of the fresh juice being prepared, which really helps enhance the ambiance of your juice business.

Make cane juice cleaner and super hygienic

TiniForce S3 is a hygienic sugarcane juice machine that maintains a clean and shiny stainless steel surface, always on display right in front of the consumer. Not only are all accessible stainless steel surfaces ultra-clean and meticulously polished to prevent welding residues and dirt stains—ensuring the purity of the sugarcane juice—but the machine also comes with a 0.15 mm filter and a removable tray to ensure clearer cane juice.

Heavy-duty operation, high yield, high efficiency

Although it is a 3-roller sugarcane juice machine with a 0.5HP brand-new all-copper motor, TiniForce S3 actually offers over 78% juicing capability in a single pass for both peeled and unpeeled cane stalks ranging from 1–6 cm in diameter. Its high-speed 19 r/min RPM achieves over 1.5 liters of cane juice output per minute. This helps you skyrocket juice business efficiency and surely builds confidence in earning more profits while consuming as little electricity as possible.

Really made of durable food grade SS304

TiniForce S3 high-end sugarcane juice machine is designed with a durable housing made of 304 stainless steel, the frame made of aluminum alloy, and it is worth mentioning that the 3 rollers, made of real solid food-grade SS304, offer more durable, stable, and reliable juicing performance, also making them definitely more robust and rust-free. Making sure the cane juice prepared is not only healthy and safe to drink, but also easy to clean and maintain after crushing.

User-friendly design, all-round safe protection

- > Overload protection; emergency on/off; waterproof buttons.
- > Flip cover protection: on one hand, it provides great isolation and protection. On the other hand, if the cover is accidentally flipped during operation, it can automatically stop running. At the same time, the machine won't run even if it is turned on while the cover is in an unreset status.
- > Handles on both sides provide easy lifting and movement.
- > When the machine is stopped and needs cleaning, long press the Reverse to allow the rollers to run in reverse, which can help prevent pinching hands during cleaning.
- > Adjustable roller gap allows effortless juicing of different types of sugarcane.

Super silent operation for a comfortable ambiance

TiniForce S3 may be considered the world's quietest sugarcane juice machine, operating at a noise level of just 50–60 dB, ensuring a serene environment where users no longer suffer from noise disruption when juicing. This feature not only enhances consumer satisfaction but also promotes a welcoming atmosphere, ideal for settings ranging from homes to commercial juice bars.
